## **GREETINGS FROM WILSON'S NURSERY**

*He that plants trees, loves others besides himself.*

*-Thomas Fuller*

To our industry partners and friends,

Welcome to the 2025 growing season at Wilson's Nursery! If you're reading this, it means you took the time out of your busy day to pick up our catalog and take a look at what Wilson's Nursery has to offer in 2025. I am sincerely grateful to you for considering us as your plant supplier, understanding that you don't choose to pick up our catalog out of a lack of options for sourcing your plant material. The Twin Cities is blessed to have an abundance of great people working in this space. Whether you're a longtime customer or this is your first contact with our nursery, THANK YOU!

We have seen significant growth in the early years of the second generation of our company. I am forever grateful to the first generation of Wilson's Nursery. The work put in by my father, Jim Wilson, and those who went alongside him into that work will never go unappreciated. I consider myself abundantly fortunate to have the opportunity to build upon the foundation laid by that first generation, and my team and I are dedicated to carrying on the legacy of those who came before us. Our commitment to that first generation - and to you - is to drive forward and become the best growers, distributors, and partners in your success that we can be.

We have invested a tremendous amount into developing growing processes and systems that allow us to provide top-quality plants backed by exceptional service. We invest in our people and have very little turnover across all divisions of our company. My goal for every employee at our company is the same one I set for myself fourteen years ago: to work in a collaborative environment that encourages us to embrace challenges and overcome them creatively, fostering both personal and professional growth.

As we enter our 43rd year in business, we remain inspired by the opportunity to continue our growth alongside you. We are focused on

continuing to refine our systems, researching new plant varieties, and continuing to learn new ways to provide industry-best service to you, our valued partners. With every plant that leaves our nursery and lands on your job site or retail garden center, we want it to be a reflection of our commitment to your success.

Thank you for your continued trust in Wilson's Nursery. We are honored to be considered for all your plant material needs and look forward to what this new year will bring. Together, we will grow stronger, build lasting partnerships, and continue to cultivate success in everything we do.

I would be honored to give you a personal tour of our nursery, so please reach out to me directly at (952) 239-2263 if you would like to set up a time to visit.

## **NEW 'DISCONTINUED' SECTION**

For the first time this year, you will find a list of items we plan to discontinue towards the back of the catalog. Planting stock for these items has not been ordered and unsold, finished stock will not be available after 2025. There are some great plants that just aren't moving. Since we desire to be your one-stop shop, we need to utilize our space wisely. Purging slow sellers makes space for more popular items and makes maintenance and care much easier. Should you see a favorite item on the list, let us know, then buy it! There is still time to 'vote' for candidates you want us to continue representing by utilizing them on your projects. Prices shown reflect a 20% discount. Volume discounts also apply!

## **PLANT HANDLING AND DELIVERY**

Wilson's Nursery maintains an extensive delivery vehicle fleet, allowing us to deliver orders of any size efficiently with a quick turnaround time. *As much advance notice as possible is appreciated when placing an order for delivery.* This will ensure that we're able to deliver your materials on the day and time they're needed.

For larger deliveries, we have invested in what we feel is one of the best plant handling and delivery systems available. With stackable steel pallets and a 48' curtain van, 25' double curtain side box-truck, and a 27' Conestoga box-truck we can quickly load and unload materials with a significantly reduced risk of plant damage.

## **ORDER PROCESSING**

When you place an order with us it is our goal to process it as quickly as possible and prevent you or one of your employees from having to wait for it. For us to have your order ready and waiting when you arrive, we require **a minimum of 4 business hours** from

*Please allow a minimum of 4 business hours for processing of all orders*

the time the order is placed, to pull and prepare the order. If an order is placed outside of regular business hours, we ask that we be allowed 4 hours after the start of our next regular business day for your order to be prepared. This will ensure that your order will be ready when you arrive. If you are pulling your own order, please allow adequate time to select and load your materials and complete the sale prior to the close of regular business hours.

## **BUD & BLOOM PROGRAM**

Get on our Bud & Bloom email list to receive a weekly update on plants that are looking especially outstanding! The list is published by Wednesday each week and we reserve truck capacity for delivery to independent retail garden centers ahead of the weekend rush! Pallet-drop service is available for efficient and easy deliveries! Contractors, sign up for the Bud & Bloom email for weekly color and inspiration! To get on the email list simply text “Bud & Bloom” to (612) 990-4073 or visit [www.wilsonsnurseryinc.com](http://www.wilsonsnurseryinc.com) and register an account. Please call with any questions!

## **CUSTOM GROWING**

Do you have a large project with a high volume of plant material? With Wilson's Nursery Custom Growing Program, we can grow any plant you need to specification AND you can save money with our volume discounts. We have had much success with this program working with contractors, independent garden centers, and municipalities. Call or email [orders@wilsonsnurseryinc.com](mailto:orders@wilsonsnurseryinc.com) to discuss your project.

*Please allow a minimum of 4 business hours for processing of all orders*

## **NATIVES**

Throughout this catalog there are several trees, evergreens, shrubs, and perennials that are marked **NATIVE**. These items are native to Minnesota. These items are also listed under their own tab towards the back of the catalog to make referencing them easier.

## **ABOUT OUR SUPER 2**

You will notice throughout our catalog that many of our shrubs and evergreens are listed as Super 2 (S2) containers. This is the same pot we previously sold as a #3 container, but because it is less than a 3-gallon capacity – but larger than what many growers call a #2, we refer to it as a Super 2. It holds approximately 2.5 gallons. We find that this pot gives a superior root system and holds moisture better while waiting on the job to be installed. We feel this provides a superior product for our customers.

## **BRANDED CONTAINERS**

You will find that there are several items in branded containers. These include ‘Proven Winners’ and ‘First Editions’, as well as ‘Endless Summer’ and ‘Easy Elegance’. These items are designated as PW, FE, ES and EE throughout the catalog.

*To plant a garden is to believe tomorrow.*

## **BEECH**

---

### **Blue Beech (NATIVE)** **H 20-30 ft W 20-30 ft (Zone 3)**

*Carpinus caroliniana*

Native variety also known as Ironwood or Musclewood. Smooth gray bark, yellow to orange fall foliage. Prefers shade and rich, moist soil.

**#10 Container...151.00    1 ½" B/B...259.00    2" B/B...349.00**

### **Firespire Beech** **H 20 ft W 10 ft (Zone 4)**

*Carpinus caroliniana 'J.N. Upright'*

Native variety with narrow, upright form. Interesting gray bark is almost muscular in appearance. Orange-red fall color and interesting hop-like fruit.

**#10 Container...151.00    2" B/B...469.00**

### **Fire King Beech** **H 25-30 ft W 20 ft (Zone 3)**

*Carpinus caroliniana 'J.N. Select'*

Hardy, fast grower with consistent red-orange fall color. Develops a dense, round crown as it matures. Its size makes it an excellent choice for limited spaces and is tolerant of full sun to full shade.

**#10 Container...155.00**

### **NEW Purple Fountain Beech** **H 25 ft W 15 ft (Zone 4)**

*Fagus sylvatica "Purple Fountain"*

Cascading purple foliage and compact size make this an excellent specimen piece for smaller yards. Foliage is slow to emerge in the spring, but well worth the wait. Plant in a well-drained location in full sun to assure the best, rich colored foliage.

**#6 Container...169.00**

### **NEW Red Obelisk European Beech** **H 40 ft W 8 ft (Zone 4)**

*Fagus sylvatica 'Red Obelisk'*

Slow-growing, columnar variety that makes a striking vertical accent in a small yard or tight location. It's deep purple, wrinkled leaves add interest through the spring, summer and fall while its smooth, silver bark adds attractive winter interest. Does best in full sun.

**#6 Container...169.00**

## **BIRCH**

---

### **Cesky Gold® Golden Treasure Birch** **H 3 ft W 3 ft (Zone 2)**

*Betula plettkei 'Golden Treasure'*

## VINES

### CLEMATIS

Jackmanii Clematis	Purple	#1 Container...19.65
Sweet Autumn Clematis	White	#1 Container...19.65
Tangutica Clematis	Yellow	#1 Container...19.65

### HONEYSUCKLE

#### **Dromore Scarlet Honeysuckle** (Zone 4)

*Lonicera x brownii 'Dromore Scarlet'*

Bright, orange-scarlet tubular flowers from June to September. Aggressive and fast growing.

#1 Container...17.15

#### **Scentsation Honeysuckle** (Zone 4)

*Lonicera periclymenum*

Very showy vine with extremely fragrant yellow flowers from mid-spring thru late summer, followed by bright red berries. Not invasive like many honeysuckle varieties.

PW #3 Container...22.95

### HOPS

#### **Cascade Hops** (Zone 4)

*Humulus lupulus 'Cascade'*

Fast growing and easily trained on a fence or trellis. Attractive cone-like flowers in late summer with a pine-like fragrance. Dies back to crown in winter.

#1 Container...10.00

#### **Nugget Hops** (Zone 4)

Vigorous lush green climber typically grown on a fence or string trellis. Produces pale, greenish-yellow cones in late summer. Mulch in winter for protection.

#1 Container...10.00

### HYDRANGEA

#### **Climbing Hydrangea** (Zone 4)

*Hydrangenna anomala ssp petiolaris*

Lacy white blooms are displayed on this adaptable vine that is shade tolerant but also thrives in full sun. Make sure the supportive structure is substantial (works well growing on tree trunks or brick structures) as once established it will cover a very large area.

#2 Container...30.75

Please allow a minimum of 4 business hours for processing of all orders

## IVY

---

**Boston Ivy** (Zone 4)

*Parthenocissus tricuspidata*

Dense, clinging vine with glossy green foliage in summer and bright orange-red in fall.

#1 Container...13.00

**Engelmann Ivy** (Zone 4)

*Parthenocissus quinquefolia 'Engelmanni'*

Smaller leaves and less vigor than Boston Ivy. Clings better to masonry. Deep burgundy fall color. Small blue fruits attract birds. Xeriscape plant.

#1 Container...13.00

## TRUMPET VINE

---

**Flamenco Trumpet Vine** (Zone 4)

*Campsis radiicans 'Flamenco'*

Rich, orange-red flowers that bloom from mid to late summer. Perfect for covering arbors, fences and walls. Loved by hummingbirds!

#1 Container...13.00

## WISTERIA

---

**Summer Cascade™ Wisteria** (Zone 4)

*Wisteria macrostachya 'Betty Matthews' PPAF*

Blooms on new wood producing masses of deep blue-lavender flowers in June. Blooms fade, leaving seed pods for winter interest. More reliably hardy than other varieties.

FE #3 Container...28.50

# Native Plants

## TREES

### Blue Beech H 20-30 ft W 20-30 ft (Zone 3)

*Carpinus caroliniana*

Native variety also known as Ironwood or Musclewood. Smooth gray bark, yellow to orange fall foliage. Prefers shade and rich, moist soil.

#10 Container...151.00    1 ½" B/B...259.00    2" B/B...349.00

### Quaking Aspen H 60-80 ft W 30-40 ft (Zone 4)

*Populus tremuloides*

Smooth, chalky white mature bark. Suckering habit makes this a great choice for naturalizing. Yellow fall color.

#10 Container...131.00    #20 Container...239.00 (Available Fall 2025)

#25 Container...269.00    2" B/B...339.00    2 ½" B/B...398.00    3" B/B...428.50

# TERMS & CONDITIONS

## TERMS

- Net due 30 days from date of invoice to established credit line customers, with a 1.5% service charge per month on all past due accounts.
- When a balance goes beyond 30 days from date of invoice, additional credit extension will cease until other arrangements have been made with us and all purchases will be on a C.O.D. basis until overdue balance is paid in full.
- Cash on pick-up for all clients with no established credit line.
- We accept Visa and Mastercard.

## SALES TAX

The State of Minnesota requires that sales tax be paid on all purchases of products purchased in Minnesota unless the buyer provides a complete, valid tax exemption certificate at the time of sale. A tax I.D. number alone is not sufficient.

## CLAIMS

Claims, for any cause, must be made in writing within 5 days of receipt of nursery stock or claim will not be considered. We cannot assume any warranty as to productiveness after planting.

## CONDITION OF SALE

This wholesale listing is offered to licensed nurseries and landscape contractors only. Prices quoted herein are F.O.B. our wholesale yard in New Germany, Minnesota. We will not be responsible for any plants damaged by wind or handling after plants have left our yard. There will be a 20% charge for:

- 1) Restocking returned merchandise,
- 2) Special orders dug and then cancelled,
- 3) Any orders reserved and then cancelled.

## RESERVING OF STOCK

We invite you to tag and reserve your own stock. There will be a 20% deposit required to hold your stock for longer than 5 days. Material tagged and reserved for over 2 weeks will require payment in full. The deposits are non-refundable if order is cancelled.
